Re: LightSquared Working Group Comments, IB Docket No. 11-109

Dear Ms. Dortch:

I support LightSquared's efforts to expand wireless broadband access in America. In addition, I support LightSquared's efforts to mitigate any interference issues outside of its allocated spectrum.

Thank you for serving as an unbiased regulator in this matter. There are significant public policy reasons for leveling the "digital playing field." With game changing commitments and investments like LightSquared's, we are making long strides towards getting there.

Sincerely,
